## New Luxury Family Suite With Private Veranda & Views of the Restored Rose Garden Opens at Gibb's Farm, Tanzania

*Preparing for the arrival of our first travellers to the Deutsche House*

**Karatu** - Carrying on a forty-five year tradition of hospitality in Tanzania, the latest fully restored cottage on Gibb's Farm is a luxury two bedroom family suite. The spacious cottage, named "Deutsche House" in honour of the original homesteader of the farm, can accommodate up to four people in two spacious en-suite bedrooms. Each garden bathroom has an indoor and outdoor shower as well as a heavenly bathtub.

A private deck with views of the Ngorongoro Forest and newly restored rose garden opens off the spacious sitting room where the coat of arms of the farm's original German settler is embedded in the stone fireplace. Up to six people can enjoy private dining in the beautifully decorated house. Artwork complimenting the theme of the German settlers in the area as well as the surrounding tribes comes from the 'Artist in Residence' program supported by the farm.

*The Deutsche House living room serves as a dining room and sitting room for up to six friends or family.*

*Chef Kuntal prepares the mantel & dining room.*

Sales & Marketing Director Dale Jensen said, “We’re pleased to open this beautiful cottage restored in the style of the old farmhouse. It retains the essence of Gibb’s Farm and brings the total of our cottages with luxurious appointments and bathrooms to eighteen rooms. Gibb’s Farm celebrates a tradition of excellent service and delicious organic food surrounded by stunning gardens, offering a relaxing base-camp for safari travellers.”

Gibb’s Farm is a luxury destination situated on the safari circuit of northern Tanzania midway between Lake Manyara National Park and the World Heritage site, Ngorongoro Crater. Travellers have been enjoying the gardens and cool forest environment since the cottages opened in 1972. The historic working coffee farm began 45 years ago, now comprising ten acres of organic fruits and vegetable gardens as well as a dairy. Travellers can enjoy the Africa Living Spa® of the integrated clinic comprising indigenous and western healers offering consultation-based remedies - a respite from the rigors of safari. They can also partake in services of the twenty Naturalists and Guides of the farm, learning about natural history and indigenous culture.
