### Helping Hands Safari

Get to know the culture and people while on safari by lending a helping hand for the communities that support your vacation or travel experience. Gibb's Farm offers different opportunities to get involved, including:

- **School Desk and Furniture Carpentry**

Contribute a few afternoons working alongside our farm carpenters to construct school furniture, distributed through the Karatu Education Fund. At schools in the area, three to four children typically share one desk, so new furniture is always appreciated. This is a very rewarding way to participate in village life and to support children's education.

**\$60 per person**

- **Erosion Control Tree Planting**

Hundreds of young tree saplings (predominantly native species) are grown on the farm as part of an effort to help control erosion and reforest the environment. Over the last 15 years, much of the farm's estate forests have been restored through this program.

Join us on an excursion to transport young trees from the farm nursery and plant them in community schoolyards and other environments.

**\$30 per person, available from mid 2017**
