

"This is absolute Eden.
The place is beautiful, the
rooms are superb and the food
is absolutely fabulous."

FARM LIFE

COMPLIMENTARY FARM LIFE EXPERIENCES

As you unwind and relax amidst the peace and tranquillity of Gibb's Farm, you may wonder what lies beyond our uninterrupted panoramic views.

To allow you to fully experience the rhythms and beauty of the farm, community and nature, Gibb's Farm offers a variety of activities, adventures and opportunities to rejuvenate.

DAWN CHORUS

Sit on your veranda with coffee or tea at dawn as the birds begin their morning song. What begins as a single note crescendos into an incredible cacophony of music.

MORNING BIRD CENSUS

Gibb's Farm is home to over 200 species of birds each season, and each year a few new ones are observed and recorded. Avid birders are encouraged to join our naturalists for an early walk around the farm to observe morning birdlife for census and behaviour, and contribute to any new sightings. Ask at reception for our Bird List.

BREAD MAKING

Join us for our early morning bread making ritual. What could be more fun than baking bread, and of course sampling it hot from the oven?

VEGETABLE HARVESTING

Join in the laughter and banter as the chefs go about their daily ritual of harvesting fresh organic produce from our vegetable garden, to be enjoyed at lunch or dinner time.

COFFEE ROASTING

Experience traditional coffee cultivation and roasting, just as it has been done for generations. Enjoy the aroma and taste of a cup of wonderful organic, fresh-roasted Arabica coffee each day at the main lodge.

AFTERNOON TEA

Indulge in the simple pleasure of afternoon tea in the garden in the main lodge. Enjoy Gibb's Farm organic Arabica coffee and teas, accompanied by freshly baked cakes and tea biscuits.

GARDEN SUNSET

As the African sun descends into the valley, enjoy the spectacular view of the golden rays spilling over the carefully cultivated rows of coffee and the East African valley beyond. Surrounded by terraced flower gardens and ancient trees overhead, you will find yourself transported to another time and place.

TEMBO FIRE

The evening begins here for many guests, with a glorious sunset accompanied by a refreshing drink. Complementing the relaxed mood, our naturalists and traditional healer share stories about primates, Iraqw culture, elephants, traditional medicine, Maasai legends and tales of tribal folklore.

"I really enjoyed our stay here and wish we had more time to explore the farm life that goes on every day. I loved every minute of our stay! I learned how to milk a cow and lots about the stages of coffee production."
