

# FAMILY STAYS AT THE FARM

"We had a great stay full of exciting things for our daughter to do. A wonderful last visit for us."  
- LIZ

From young to multi-generational, our farm has been welcoming families for decades.

Children of all ages are welcome, and those little ones 0-6 years stay for free.

With no televisions in our cottages, we encourage you to unplug and reconnect with each other, nature and yourself by immersing within the rhythms of the farm.

## FAMILY SAFARIS

Perfectly located to explore some of Tanzania's highlights: Ngorongoro Crater, Lake Eyasi & Lake Manyara, together as a family. We are an ideal stopover en-route between Tarangire & Serengeti, as well as to begin or end your safari with some relaxing farm-life activities.

Explore the surrounding areas with our Farm to Ngorongoro Crater Rim walking safari\*, a visit to the Elephant Caves\*, or a day in the near-by national parks. Guests can also explore the back roads of the village by bicycle, and for the more adventurous, take a mountain bike day trip to Rhotia for an unforgettable way to experience rural Tanzania.

## FAMILY FARM-TO-FORK FEASTS

90% of all produce at Gibb's is from our own organic gardens and farmyard. Fresh fruits, vegetables and herbs are freshly picked from our garden and meat is sourced from local, sustainably raised farms.

Fresh milk, cream and baked delicacies create balance for nutritious and sumptuous breakfast, lunch and dinner menus.

## COMPLIMENTARY FAMILY ACTIVITIES ON THE FARM

All ages will delight in the numerous farm and garden walks, early morning bread making, vegetable harvesting, egg collection, coffee roasting and cow milking.

Children can spend time with our Artist-in-Residence during their stay and get creative on canvas.

Enjoy watching the bush-babies feast on a meal of bananas after swapping tales at Tembo Fire.
